

Painted turtles  
Mckayla  
2010

Here are some question's I will answer.

- Where are they found?
- What kind of waterways do they live in?
  - What kind of food do they eat?
- Why are they called painted turtles?

# Why are they called painted turtles?

They are called painted because of their colorful stripes.

# What kind of water ways do they live in?

They live in ponds, lakes, marshes and in slow moving rivers that have soft muddy bottoms.

# What food do they eat?

Painted turtles feed mainly on plants and small animals such as fish, crustaceans, and aquatic insects.

# Where are they found?

- They are found in Southern Canada to northern Mexico.
